

# HEILIND

Performance. Trust. Innovation.

## Juarez, Mexico Regional Warehouse

Heilind has recently expanded our regional presence in Mexico to include a new 60,000 sq. ft. proximity warehouse located in Juarez, Mexico. This new facility will provide Heilind customers greater flexibility to localize strategic inventory – providing quicker turnaround and delivery with our own local shipment service.

### Benefits

Leveraging over 20 years of supply chain experience servicing maquiladoras to reduce lead times, expedite and material management costs, the Heilind Juarez proximity warehouse will enable us to offer our global service delivery model locally in the Juarez region, enabling:

- Increased flexibility
- Decreased lead times
- Reduced importation costs
- Improved inventory turns
- Higher service levels
- Seamless integration

When combining local distribution with vendor managed inventory programs, customers will streamline their supply chain and minimize the risk of running out of essential parts.
